EXPERIENCE

Independent Practice

Jan 2023 - Present

Freelance Product Designer

- Designed and launched a trophy showcase website for Indochina Production Company in Framer, owning design and development.
- Defined brand guidelines for Truewind (YC W23) across product and marketing; contributed product design for Numi (YC W20).

Mahaana (YC W22)

Dec 2023 - May 2026

Senior Product Designer; previously Product Designer

- Led mobile and web design across onboarding, investing and portfolio management for a platform serving **20,000+ active clients**.
- Simplified risk profiling, identity verification and investment selection, enabling account opening in **under 5 minutes**.
- Cut design-to-development handoff time by **35%** through a shared system of components, tokens and interaction patterns.
- Rebuilt the marketing site in Next.js with Sanity, giving the marketing team direct control over content updates.
- Mentored a junior designer and worked with product, engineering and the founder to deliver features from design to launch.

PeerDrop

May 2021 - Aug 2022

UI/UX Designer

- Designed mobile and web customer journeys for a London-based grocery delivery startup, from discovery to activation.
- Created pitch narratives and product walkthroughs that supported a successful **£40,000 investment round**.

SELECTED PROJECT

Iconimate | Motion Design & Front-end Development

2026 - Present

iconimate.app | github.com/smammar100/Iconimate

- Built an open-source React library of **216 animated icons** based on Phosphor, with individual installation via shadcn CLI.
- Earned **45 GitHub stars** and a **feature on DEV.to's social media**; designed and built the live gallery.

EDUCATION

Harbour.Space / UTCC

Sep 2022 - Aug 2023

MSc, Interaction Design | **Full scholarship**

FAST-NUCES

Aug 2016 - May 2020

BSc, Computer Science
